D4I 52.211-9G45 POPS-SPECIAL MARKING INSTRUCTIONS  
DSCR (OCT 2001)

NOTICE FOR DIRECT VENDOR DELIVERIES: In addition to the requirements of paragraph 5.1.6.2., Markings of ASTM D3951, markings on exterior shipping containers will contain as a minimum the NSN, requisition number, and the contract delivery order number. These markings are to be applied through stenciling or other means, directly to the exterior shipping container or included in the body of the invoice/shipping document which will be permanently affixed to the exterior shipping container. Regardless of method used, all markings must be visible to receiving personnel. When the total number of containers going to the same destination exceeds either 250 pounds (excluding pallet) or a volume of 20 cubic feet, then palletization is required except for 55 gallon drums.

NOTICE FOR SHIPMENT TO DLA STOCK LOCATIONS: Shipments to DLA stock locations must be marked in accordance with MIL-STD-129N dated 15 May 97 and AIM BC 1 with the following exception: Marking, including barcoding, and fragile marking (if required), must be on the outside container and all intermediary containers down to the specified QUP. DSCR Clause 52.211-9G22 (Sec F) applies.

D4K 52.211-9G73 PACKAGING AND MARKING  
REQUIREMENTS (JUL 2002) DSCR

(a) Unless stated otherwise, commercial packaging in accordance with ASTM-D-3951 is required for CONUS shipments from the contractor directly to the customer. Commercial packaging and marking is not sufficient for vendor shipments requiring movement through the Defense Transportation System (also referred to as the Military Distribution System or DLA Depot) as the shipment could ultimately be moved via Military Air.

(b) Higher level packaging in accordance with MIL-STD-2073 is mandatory for all shipments that meet the below criteria:

Movement through the Defense Transportation System including shipments to a Military Distribution facility or depot.

OCONUS shipments  
FMS shipments  
Hazardous material, as cited in the AID or in the Quality Requirements Matrix.

(c) Materials not considered as HAZMAT for CONUS or OCONUS commercial air shipments may be considered HAZMAT for MILAIR shipments OCONUS. As such, contractors/shippers shall ensure that material meeting HAZMAT definitions in DLAI 4145.3, Preparing Hazardous Materials for Military Air Shipment, is packaged in accordance with that instruction when the consignee is OCONUS and the shipment will be moved through the Defense Transportation System. DLAI 4145.3 is available on the internet at:  
[www.dscc.dla.mil/downloads/packaging/dlai4145\\_3.pdf](http://www.dscc.dla.mil/downloads/packaging/dlai4145_3.pdf).

(d) All items shall be marked in accordance with MIL-STD-129. Hazardous items and shelf life items, as cited in the AID or in the Quality Requirements Matrix, shall be marked in accordance with MIL-STD-129 and the appropriate clauses cited in the appendix to the matrix and the contract. The contractor is required to package material in accordance with Quantity Unit Pack (QUP), specified in MIL-STD-2073 and the Unit of Issue (UI), specified in each delivery order. A packing slip shall be located in a plastic pouch on the outside of the package. For HAZMAT destined OCONUS, a hard copy of the Material Safety Data Sheet (MSDS) must also be included.

(e) In the event of deployments, this clause may be invoked when shipments originally destined for a CONUS location are diverted to OCONUS destinations thereby necessitating movement of the material through the Defense Transportation System. In such an event, contractors will be notified by the Contracting Officer and an equitable adjustment will be made in the contract price as deemed appropriate.

NOTE: Applicable to negotiated solicitations. Offers that do not comply with the packaging and marking requirements as specified in Section D of this solicitation may be subject to rejection as being technically unacceptable.

predictable effect on that interest.

(c) Contractor agrees, because of the nature of the work it will perform under this contract, there is an inherent conflict between its role in performing that work and subsequently competing on or consulting with others on any acquisition resulting, in whole or in part, or related to the work performed under this contract. The Contractor is prohibited from participating in any capacity, either directly or indirectly, as a prime contractor, subcontractor, or consultant, on any contracts, subcontracts, offers, bids or other acquisitions related to the work performed under this contract.

(d) Before beginning work under this contract and on each anniversary thereof, the Contractor shall provide to the Contracting Officer, for itself and for each of its affiliates, a statement concisely describing any financial interests of the Contractor or its affiliates. The Contracting Officer, with legal counsel, will review this statement to decide whether there are any actual or potential conflicts of interest between the Contractor's or affiliates' financial interests and performance of this contract. Should there be any such conflicts, the Contracting Officer, in consultation with but not necessarily the approval of the Contractor, may take any reasonable steps necessary to avoid or remove any interest that diminishes the Contractor's capacity to give impartial, sound, and objective assistance and advice. Included among those remedies, the Contracting Officer shall not permit the contractor or any of its affiliates to work directly on any matter for which there is or may be a conflict of interest. The necessity to take corrective action does not relieve the Contractor of its obligations under the contract. The Contracting Officer also may, upon the Contractor's breach of its warranty made herein, rescind the contract without liability or, at its discretion, terminate this contract for default. Further, should rescission or termination be required, the Contractor shall not be entitled to reimbursement of any cost incurred in performing this contract or payment of any fee thereunder. Such costs shall not be allocable or chargeable, directly or indirectly, to any other with the Government.

(e) During performance of this contract, a supplier may submit certain information of a proprietary nature to the Government. The Contractor may receive this information while performing under this contract. The Contractor agrees to use and examine this information exclusively in the performance of this contract and to take the necessary steps to prevent disclosure of such information to any party outside the Government, as long as it remains proprietary. The Contractor agrees to indoctrinate its affiliates who will have access to this information as to the proprietary nature of the information and the relationship under which they may have possession of the information. The Contractor also will inform its affiliates that they may not engage in any other action, venture, or employment where this information will be used for the profit of any party other than the party furnishing this information. Additionally, the Contractor agrees to execute agreements to this effect with companies providing proprietary data for performance under this contract. The Contractor will restrict access to proprietary information to the minimum number of employees necessary for performance of this contract.

(f) The Contractor agrees to execute agreements with companies furnishing proprietary data in connection with work performed under this contract, obligating the Contractor to protect such data from unauthorized use or disclosure so long as such data remains proprietary, and to furnish copies of such agreements to the Contracting Officer. Contractor further agrees it shall not use such proprietary data in performing any other work without the express written permission of the entity that originally provided the information and the Contracting Officer.

(g) Contractor is prohibited from disclosing procurement information as proscribed in subsection 27(a) of the Office of Federal Procurement Policy Act (41 U.S.C. '423, as amended) as implemented in FAR 3.104-4(a). The Contractor shall comply with the requirements of FAR 3.104-5 concerning the disclosure, protection, and marking of contractor bid or proposal information and source selection information.

Concurrent with submission, the contractor shall notify the Contracting Officer of the employee(s) name, DSCR assigned position, and request that the employee be allowed to work pending the outcome of the investigation. If the result of the subsequent investigation is other than positive, the employee(s) may be subject to removal as specified at paragraph (i).

(g) For ADP-I and ADP-II positions, the required investigation shall be completed prior to the assignment of individuals to sensitive AIS duties associated with the position.

(h) The requirements outlined above apply to the prime contractor and any subcontractors the prime contractor may employ during the course of this contract. All costs for obtaining contractor employee investigations and clearances shall be at the contractor's own expense.

(i) The Contracting Officer retains the right to require removal of contractor personnel, regardless of prior clearance or adjudication status, whose actions, while assigned to this contract, clearly conflict with the interest of the Government. Mediation involves a neutral, called a mediator, who assists both parties as they try to resolve their dispute voluntarily and produce a solution that is acceptable and beneficial to both. After unassisted negotiations over an issue in controversy have proven ineffective in either situation, the contracting officer will contact the contractor seeking to resolve the dispute through mediation. In either situation, a contractor's decision not to engage in mediation shall be conveyed in writing to the contracting officer.

(Note: DLA procedures for Agency Level Protests filed under Executive Order No. 12979 allow for a higher level decision on the initial protest than would occur with a protest to the contracting officer; this process is not an appellate review of a contracting officer's decision on a protest previously filed with the contracting officer). Absent a clear indication of the intent to file an agency level protest, protests will be presumed to be protests to the contracting officer.</p> <p>DSCR NOTE:</p> <p>Executive Order 12979 encourages the use of Alternative Dispute Resolution in resolving Agency-level protests. Therefore, DSCR has in place a process to mediate Agency-level protests filed pursuant to Executive Order 12979. Mediation is a voluntary process where the parties meet with a third party neutral (the mediator) to discuss their positions and open a dialogue. The mediator does not make any decisions on the dispute, but rather helps the parties explore their concerns and possible avenues for solutions. Any mediation will occur at DSCR. A trained DSCR mediator who has not had previous personal involvement in the procurement will conduct the mediation. If resolution of the protest is not reached through the mediation process, the protest will be forwarded to the Chief of the Contracting Office for a written decision on the record. If an offeror wishes to file an Agency-level protest, but does not wish to engage in a mediation, the Agency-level protest should state that the protesting party does not wish to participate in a mediation and would like a decision on the written record.</p>

**SECTION M**

**M2 252.208-7000 INTENT TO FURNISH PRECIOUS METALS AS GOVERNMENT-FURNISHED MATERIAL DFARS (DEC 1991)**

(b) The Offeror shall cite the type (silver, gold, platinum, palladium, iridium, rhodium and ruthenium) and quantity in whole troy ounces of precious metals required in the performance of this contract (including precious metals required for any first article or production sample), and shall specify the national stock number (NSN) and nomenclature, if known, of the deliverable item requiring precious metals.

Precious Metal*	Quantity	Deliverable Item (NSN and Nomenclature)
-----------------	----------	---

\* If platinum or palladium, specify whether sponge or granules are required.

(c) Offerors shall submit two prices for each deliverable item which contains precious metals--one based on the Government furnishing precious metals, and one based on the Contractor furnishing precious metals.

M3B 52.211-9003

CONDITIONS FOR EVALUATION OF OFFERS OF GOVERNMENT SURPLUS MATERIAL DLAD (APR 2002)

(a) Definition.

'Surplus material,' as used in this provision, has the same meaning as in the clause at 52.211-9000, Government Surplus Material.

(b) The Agency will evaluate an offer of surplus material when the Contracting Officer determines the Offeror is otherwise in line for award, after adding the cost of evaluation (\$200 for internal evaluation and, if applicable, an additional \$500 for each Engineering Support Activity (ESA) evaluation, plus any additional fees required for special testing and/or inspection).

(c) When an offer is for a quantity less than the solicited quantity, the contracting officer will consider the \$500 cost of issuing and administering more than one award. The contracting officer will also consider the anticipated impact on the unit price of the remaining quantity, to determine the total cost to the Government.

M4D 52.211-9G72 DELIVERY TIME REQUIREMENTS DSCR (JUL 2001)

The Government requires delivery to be made according to the following schedule:

**DIRECT VENDOR DELIVERY**

(a) For any delivery order which specifies a priority of 1 to 3 and has a delivery location within the continental U.S. (CONUS), the contractor shall be required to ship and deliver the order quantities so as to ensure receipt at the delivery destination(s) within 2 days after receipt of the delivery order.

(b) For delivery orders which specify a priority of 4 to 15 and have a delivery location within CONUS, the contractor shall be required to ship and deliver the order quantities so as to ensure receipt at the delivery destination(s) within 5 days after receipt of the delivery order.

With regard to time of delivery, offers that propose to meet delivery specified above will be evaluated equally. Offers that propose to better delivery than specified above may result in a higher evaluation. Offers that propose delivery clearly not within the applicable required delivery periods specified above will be evaluated lower or may be rejected.

**OFFEROR'S PROPOSED SCHEDULE**

NOTE: No entry is required for offerors proposing to meet the Government's required delivery schedule as shown above.

(a) For priority 1-3 items with destinations within CONUS, delivery shall be within \_\_\_\_ days after receipt of the delivery order.

(b) For priority 4 to 15 items with destination within CONUS, delivery shall be within \_\_\_\_ days after receipt of the delivery order.

The contractor shall furnish copies of both shipping and delivery documents whenever requested whenever requested by the Contracting Officer

M8	52.214-9002	TRADE DISCOUNTS DLAD (JUN 1983)	(4) DSCR will make negative quality and delivery data reflected in the ABVS score available to offerors by the 15th day of the month via the ABVS Website. The offeror's negative performance data will be posted before it is reflected in the ABVS score (Preview Period), to give offerors an opportunity to review and verify data. An offeror must challenge any negative data within the Preview Period to assure corrections are posted before calculation of the score. Offerors must submit challenges and substantiating evidence (e.g. invoices, DD Form 250s, modifications) to the ABVS Administrator. The 'Center' field will identify the appropriate focal point. For those identified as 'DSCR,' send challenges to:

M10F	52.215-9G05	AUTOMATED BEST VALUE SYSTEM DSCR (JUL 2002)	(5) Though offerors may challenge negative data at any time, it is to the offeror's advantage to challenge negative data during the Preview Period before it has an opportunity to be reflected in the ABVS score. Accordingly, an offeror should review performance data on a monthly basis at a minimum. When a challenge is received, the ABVS score will be flagged. The flag will remain until the challenge is resolved. If an offer under evaluation involves a challenged score, then the Contracting Officer will consider the nature of the challenged data and its relevance to the acquisition as part of the award decision. The ABVS Administrator will adjust the ABVS score if the Administrator upholds an offeror's challenge. Scores created in the update cycle immediately following the determination will reflect the adjustment.		
(a) The Automated Best Value System (ABVS) Score as an Element of Past Performance Evaluation.			(6) When there is a discrepancy between the offeror's challenged data and the Government's data, it becomes disputed data. The Government will make every effort to resolve the discrepancy expeditiously. However, the Government is the final authority for resolution of disputed data and its use in the source selection process, and may make an award decision despite the existence of an unresolved challenge.		
(1) ABVS scores do not determine eligibility for award or technical acceptability. The Government shall use ABVS scores to compare past performance among offerors, not to make determinations of responsibility.			(b) Using the ABVS score for evaluation.		
(2) To evaluate each offeror's past performance, DLA will assign an ABVS score to each offeror based on the offeror's past performance. ABVS scores for performance in each Federal Supply Class (FSC score) will be based on DLA consolidated performance history. An offeror may have multiple FSC scores but will have only one DLA score, which is a compilation of the offeror's FSC scores for all business conducted with DLA. These scores will be calculated monthly and remain in effect for a month. The ABVS score is a combination of an offeror's delivery and quality scores. The quality score reflects validated contractor caused product and packaging nonconformances during the rating period. For administrative purposes, the rating period excludes the most recent 30 days. The delivery score reflects all lines shown as delinquent during the rating period. For administrative purposes, the rating period excludes the most recent 60 days. For ABVS purposes, delinquent lines represent shipments not shipped and/or received in their entirety by the contract delivery date. The 30 and 60 day offset periods are NOT grace periods.			(1) The contracting officer will first evaluate offers using the FSC score for the solicited FSC in effect at the time offers are evaluated. The contracting officer will use an offeror's DLA score to evaluate an offeror without an FSC score for that particular FSC. The contracting officer may consider the volume of business on which the FSC score is based as a measure of confidence in the score's indication of performance risk. The contracting officer may choose to use the DLA score if he or she lacks confidence in the FSC score. The contracting officer also may use the DLA score if the FSC scores among offerors are relatively equal. An offeror with no performance history will not be evaluated favorably or unfavorably and will be assigned a '999.9' in the ABVS. A '999.9' is used to designate those instances wherein the offeror has no past performance history, has no history for the particular FSC or has no history for the timeframe being rated.		
(3) Business Systems Modernization.			(2) Contractor caused discrepancies or delinquencies will be reflected in the ABVS as an indicator of past performance. Repair, replacement or reimbursement of quality and packaging defects will not provide relief of negative ABVS data. Contractor caused delivery extensions, regardless of consideration paid, will be reflected in the delivery score.		
(i) The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM software, real time data and actual transactions such as solicitations and awards. But because of the new software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in August 2002.			M10G 52.215-9G06 EVALUATION AND AWARD DSCR (FEB 2000)		
(ii) Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs, which are not in the BSM test, ABVS will continue to work as it does today.			See Section M Supplement		
(iii) In order to determine if a NSN or FSC is included in this BSM test, go to the BSM Supplier Information Resource Center, <a href="http://www.dla.mil/j-6/bsm/SIRC/SIRC.htm">http://www.dla.mil/j-6/bsm/SIRC/SIRC.htm</a> . Awards not included in the ABVS performance data will be identified by contract numbers beginning with SPMXXX or SPEXXX in lieu of SPOXXX (this does not apply to orders issued against non-DLA Basic Ordering Agreements or contracts).			(a) AWARD. The Government intends to evaluate proposals and, if necessary, conduct discussions with all responsible offerors within the competitive range. The award will be made to the offeror whose proposal conforms to the terms and conditions of the solicitation and represents the best value to the Government. Therefore, award may be made to other than the lowest priced or the highest technically rated offer.		
(iv) This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply			CONTINUED ON NEXT PAGE

(b) **RELATIVE IMPORTANCE AND TRADE-OFFS.** The Government will base the determination of best value on a comparative assessment of the offerors' prices, past performance, and the other evaluation factors identified elsewhere in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors, when combined, are:

- ☐ significantly more important than cost or price. As other evaluation factors become more equal, the evaluated cost or price becomes more important.
- ☒ approximately equal to cost or price; or
- ☐ significantly less important than cost or price. As the evaluated cost/price becomes more equal, relative importance of all other evaluation factors becomes more significant.

The final award decision may involve a trade-off among cost or price and the non-price factors. Factors that may be considered in the trade-off process include, but are not limited to:

Item criticality and weapons system application  
Delivery schedule and current inventory status  
Historical delivery or quality problems  
Concerns over limited supply sources and industrial base  
Benefits from obtaining new sources

(c) **COST OR PRICE.** The Government will evaluate the offered cost or price for cost realism, as defined in FAR 15.401, and reasonableness. The Government will add any other cost or price evaluation factors identified elsewhere in this solicitation (e.g. Buy American Act or FOB Origin transportation costs) to arrive at the offeror's evaluated cost or price. The evaluated cost or price will be used in conjunction with the other non-price factors to determine the best value to the Government.

(d) **PAST PERFORMANCE EVALUATION FACTORS.** The Government will use the past performance evaluation factors marked below in addition to cost or price and other evaluation factors specified in the solicitation. Unless indicated otherwise, past performance is significantly more important than other non-price factors. Within the past performance subfactors, ABVS scores will be weighed most heavily because of their relevance to DSCR awards. Quality history and delivery schedule compliance will be weighed more heavily than the remaining past performance subfactors. All other non-price evaluation factors specified in this solicitation weigh equally, unless otherwise indicated.

(e) **PAST PERFORMANCE.** Past performance includes, but is not limited to, the offeror's record of conforming to contract requirements and standards of good workmanship; adherence to contract schedules, including the administrative aspects of performance; the offeror's reputation for reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the offeror's business-like concern for the customer's interest.

(i) Offerors may submit with their offer information on past and current Federal (non-DSCR), State and local government and private sector contracts performed by the offeror at the proposed performance location within the last three years that are similar in nature to this acquisition. Offerors electing to submit this data must furnish at least the following information: name and address

of the contracting entity; the contract number; award and completion dates; the dollar value; the contract type; the items or services provided; two references, with title and phone number; and any problems encountered and the corrective action taken by the offeror.

(ii) By submitting past performance information, the offeror agrees to permit the Government's representatives to contact the listed references and inquire of the offeror's performance. If more than three contracts are identified, the Government reserves the right to randomly select and limit its review to three contracts. In addition to the information provided, the Government may consider information obtained from other sources when evaluating the offeror's past performance. Offerors will be given the opportunity to discuss negative past performance information obtained from references if the offeror has not had a previous opportunity to comment on that information.

(iii) In addition to the information above, DSCR will use the Automated Best Value System (ABVS) to evaluate quality and past performance on DLA awards (see 52.215-9G05).

(iv) Offerors with no past performance history (whether internal or external to the Federal government) will not be evaluated favorably or unfavorably.

M12 52.216-9G09 **EVALUATION - INDEFINITE QUANTITY CONTRACT DSCR (NOV 1996)**

Offers will be evaluated on the basis of the estimated annual quantity. If quantity breaks are offered with various prices, the highest price offered will be used for evaluation.

If line items for both stock and DVD are included in the schedule offers will be evaluated based on the total extended price for the stock and DVD line items.

M15 52.217-5 **EVALUATION OF OPTIONS (JUL 1990)**

M19CA 52.217-9G27 **SURGE & SUSTAINMENT EVALUATION - MINIMUM REQUIREMENT DSCR (JUNE 2001)**

(a) **Evaluation.** The surge & sustainment (S&S) requirement identified in the schedule represents a minimum requirement for award; therefore, offerors that fail to offer for the S&S requirement or submit proposals that are deficient may be rejected. The S&S capability assessment specified in 52.217-9G26 will be evaluated to determine the offeror's ability to meet the increased quantity/accelerated delivery requirements identified in the schedule for S&S.

(b) **Acceptable Standard.** Acceptable proposals must:

(1) describe a methodology which enables visibility of supplier base resources on a continuing basis;

(2) identify supplier base inventories, production capability, on-demand manufacturing and advanced technology capabilities, or any other means of support available to meet S&S requirements and, based on this identification, provide a description of S&S strategies for all items;

(3) identify problem items for which S&S cannot be easily met, propose solutions for these items, and identify any significant investments (dollars or otherwise) needed to implement these solutions;

(4) describe access to, and plans for, coordinating distribution and transportation services for meeting S&S requirements; and

(5) provide information regarding agreements with subcontractors, suppliers and service providers, if applicable, that reflect access to S&S resources;

(6) identify any significant investment (dollars or otherwise) under (3) or other subparagraphs above, needed to develop S&S capability, with the following information:

(i) An explanation of why the investment is needed.

(ii) A description of what items or materials will need to be purchased with the investment.

(iii) Provide a justification/basis for the investment cost.

(iv) Identify the S&S capability to be gained from the investment.

(v) For investments to effect S&S strategies, an analysis of what strategies were considered and why the proposed strategies are the most cost effective.

(c) Acceptable Standard Commercial. The following standard shall apply in lieu of paragraph (b) for commercial items that are readily available and accessible in sufficient quantities to meet the S&S requirements. Adequate proposals shall:

(1) provide information to support the rationale for concluding that the S&S items are readily available;

(2) describe how access to these resources will provide the ability to meet S&S requirements; and

(3) identify a plan for coordinating distribution and transportation services for meeting S&S requirements

(d) Deficient Proposals. Proposal revisions to correct deficiencies in S&S capability may be addressed during negotiations with offerors determined within the competitive range.

(e) Price. Price(s) associated with S&S items will be evaluated for reasonableness and realism in accordance with proposal analysis techniques specified in FAR 15.404. The total evaluated price associated with a proposal will include S&S prices/costs only to the extent such prices/costs represent:

(1) the dollar amount that must be obligated or reserved at time of award to implement and or maintain the S&S capability and

(2) the dollar amount associated with a confirmed requirement to support an actual contingency.

(f) Materially Unbalanced Offers. The Government may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract lines is significantly overstated or understated as indicated by application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that lack of balance poses an unacceptable risk to the Government.
